Wall Mount Speaker SPK15V

Specification / Model	SPK15V
Speaker caliber	5 inch X1
Rated power at 100V	5 W
Material	ABS shell + Iron grill
Input (KΩ)	70V/100V
Frequency Response (Hz)	120-16KHz
Sensitivity (1w/1m)	91±2dB
Weight	0.92 kg
Size(mm)	∅200x500 mm
Carton dimensions (12PCS)	640x440x450 mm

Designed for use where traditional ceiling mounted speakers are difficult or impractical to install. Used in such areas as very high raked, suspended, concrete, or exposed ceilings. Installation requires a single fixing with connection concealed within the ceiling rose provided. Ideally suited to areas where traditional loudspeaker installation is impractical, particularly in high ceiling environments where meeting a required attenuation level is difficult. A pendant speaker lowers the level of the sound source from the ceiling, allowing greater sound dispersion without the need to increase overall wattage output.
