

Clearer Target, Lower Bitrate

AI Coding saves 50% bandwidth and storage costs

Cost-saving

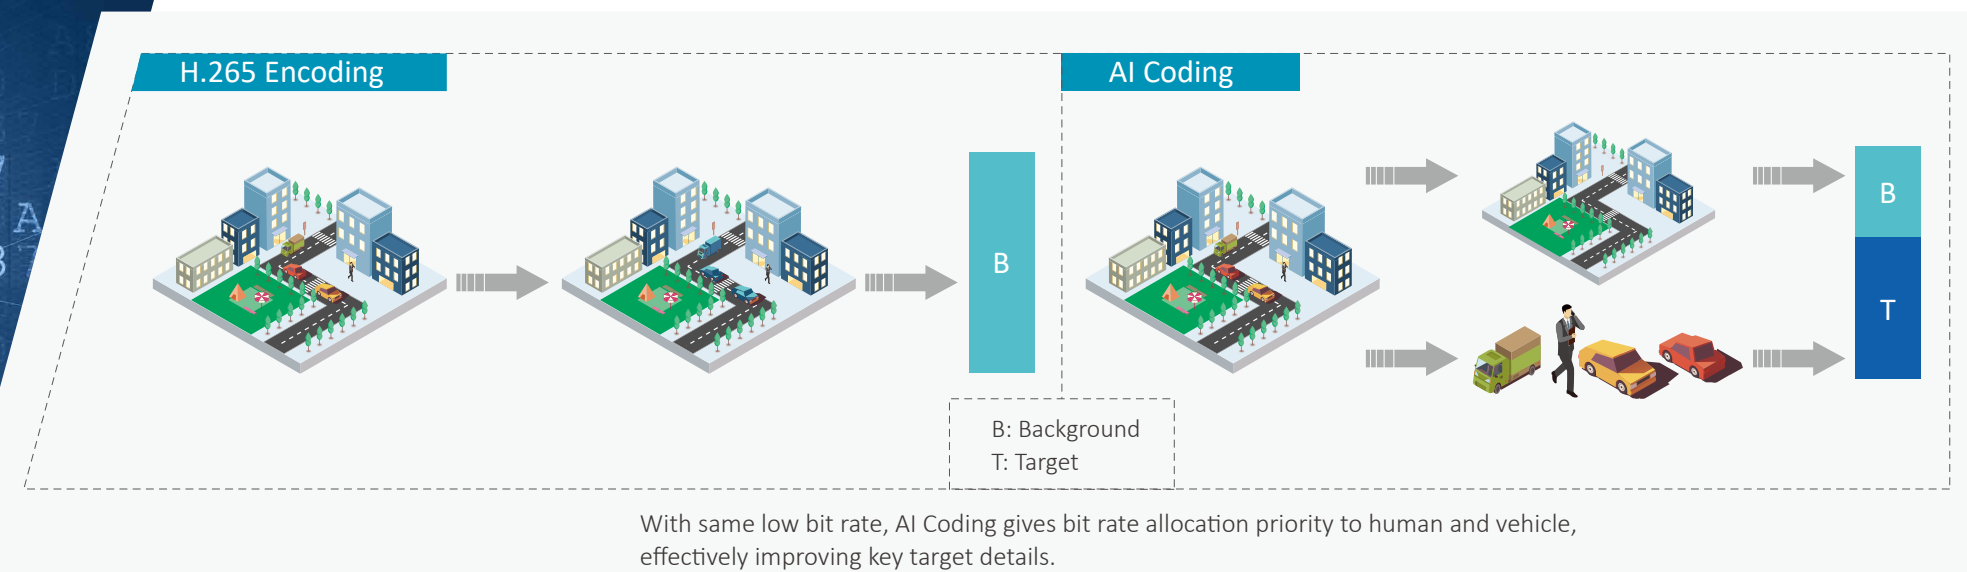

Compatible

Stable

What is AI Coding?

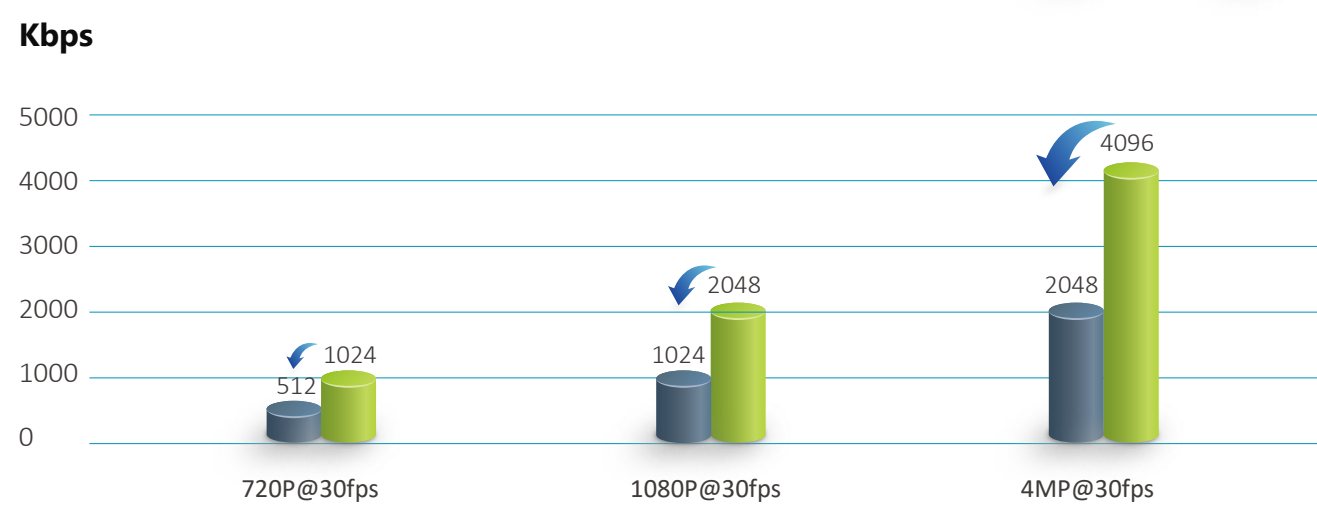

As video moves toward high definition, how to save storage costs while maintaining image quality has become one of the users' concerns. Dahua AI Coding puts emphasis on human and vehicle while encoding, ensuring the target image quality while saving 50% bandwidth and storage costs compared with H.265.

Product Features

• Cost-saving

Saves 50% of bandwidth and storage space!

Storage for 1 month of video footage

• Compatible

Through CBR (Constant Bit Rate), AI Coding does not lose its decoding compatibility when integrated with 3rd party players or platforms.

• Stable

AI Coding based on CBR requires fixed bandwidth construction, ensuring system stability.

VBR (Variable Bit Rate) has high burstiness, which makes it difficult to calculate the required bandwidth.

Makes it easy to deploy bandwidth and improves bandwidth utilization.

Solutions and Products

Highlights:

- Saves more than 50% bandwidth and storage costs compared with H.265 while maintaining valuable target image details.
- Allows video decoding by Dahua or 3rd party platforms with full compatibility.
- Eliminates users' worries regarding sudden changes in bitstream.

Application Scenarios

Warehouse

Casino

Shopping Mall

Museum

Products Series

XVR5000-I2 Series

5M-N/1080P

- Up to all channel AI Coding
- Up to all channel SMD Plus
- Up to 2 channel video stream Perimeter Protection
- Up to 2 channel video stream Face Recognition
- Up to all channel 5MP/4MP/1080P camera input
- Support all channel 5M-N@10fps/4M-N@15fps/1080P@15fps encoding

XVR5000-4KL-I2 Series

4K-N/5MP

- Up to all channel AI Coding
- Up to all channel SMD Plus
- Up to 2 channel video stream Perimeter Protection
- Up to 2 channel video stream Face Recognition
- Up to all channel 4K camera input and 4K-N@30fps/4K@15fps preview
- Support all channel 4K-N@15fps or 4K@7fps encoding

XVR7000-4K-I2 Series

4K

- Up to all channel AI Coding
- Up to all channel SMD Plus
- Up to 2 channel video stream Perimeter Protection
- Up to 2 channel video stream Face Recognition
- Up to all channel 4K camera input and 4K@30fps preview
- Support all channel 4K@15fps encoding
