

DHI-UAV-GA-V-2012TGV2

Gas Detector

- Qty. of sensor: 6
- Type of detect gas: 47
- Sensibility: 0.01~50ppm
- Flight Platform: X820, X1100, X1550

System Overview

This product is a multifunctional gas composition analyzer. It can carry 6 different types of gas sensors, real-time monitoring of toxic and hazardous gases on site. Each gas sensor can be replaced. All detected data can be transmitted to the monitoring computer in real time.
